

September 14th, 1973

Dear Leonard,

Many thanks for your wise letter, describing the situation about national health insurance.

I certainly will be in touch with ~~members~~ of the House Subcommittee and make known my views. I might have some influence* with Paul Rogers. I am not so sure about the rest of them, although I do have some acquaintance with most of them.

I will wait until the hearings are nearly over before I start any campaigning, but I will go to see Paul Rogers personally and any others that I might possibly have any influence with.

With gratitude to you and warmest wishes,

Yours,

Mr. Leonard Woodcock

*not much, really.
